1. **Purpose**

This standard operating procedure (SOP) describes the responsibilities of the study team for monitoring, recording and reporting a serious adverse event (SAE) from the time it is identified until all follow-up activities associated with its resolution have been completed.

2. **Scope**

This SOP applies to all clinical studies involving human participants.

3. **Responsibilities**

Principal investigator, Co-investigator, Study Coordinator or any other appropriately qualified staff in the team, as delegated by the Principal Investigator, will be responsible for monitoring, recording and reporting serious adverse events.

4. **Applicable rules, regulations and guidelines**

- New Drugs and Clinical Trials Rules 2019
- Ethical Guidelines for Biomedical and Health Research on Human Participants ICMR, 2017
- ICH E6 (R2) Integrated Addendum to ICH E6 (R1), Current Step 4 version dated 9th November 2016

5. **Reference to other applicable SOPs**

- SOP No 03/03: Responsibilities of the Study Team
- SOP No 14/03: Adverse event monitoring, recording and reporting
- SOP No 21/03: Contact and communication with sponsor
- Addendum to SOP for SAE Reporting

6. **Detailed Instructions:**

➢ **Identify SAE**

A Serious Adverse Event (SAE) is defined as
Any untoward medical occurrence that at any dose:

- Results in death,
- Is life-threatening,
- Requires inpatient hospitalization or prolongation of existing hospitalization,
- Results in persistent or significant disability/incapacity, or
- Is a congenital anomaly/birth defect

[ICH E6 (R2), www.ich.org, accessed on 30th April 2021]
- Is a significant medical event

I. **Medical management of an SAE**

1.1 Appropriate medical management of an SAE by referring to the appropriate collaborating (or any other as applicable) department in the institute. Supportive measures should be immediately used as appropriate and are directed toward participant safety and well-being.

1.2 Participant will be followed up till complete resolution.

II. **Documentation of an SAE**

2.1 Document the nature of the SAE, which includes onset, duration, progress, management and outcome in the participant's source document/s.

2.2 Relatedness of the SAE to the clinical trial must be assessed by the PI and reported in the SAE form (Appendix 1 and 2)

2.3 The SAE reporting form of the department (See Appendix 1) and the SAE assessment form along checklist of the IEC (see Appendix 2) should be used for documentation in case of academic studies.

2.4 The SAE assessment form and checklist of the IEC (see Appendix 2) and SAE form provided by sponsors (if any) have to be filled in case of pharma sponsored studies.

2.5 In case the sponsor does not have a form then the SAE reporting form of the department (Appendix 1) should be used for documentation.
2.6 Complete documentation should be done in the source documents and case record forms (CRFs).

III. Reporting of an SAE

3.1 Inform the Sponsor, Licensing Authority and Chairperson of Ethics Committee within 24 hours using the SAE reporting form (Appendix 3).

3.2 For an SAE (causing Death/ other than death): PI have to send a detailed report (after due analysis) within 14 days of the occurrence of the SAE (death) to the IEC, Head of the Institution and Licensing Authority (Appendix 3).

3.3 SAE Reporting is to be done online on the SUGAM portal as per the CDSCO order dated March 2021. Refer to Addendum SOP for SAE Reporting for details.

IV. Compensation- medical management and if related further compensation

4.1 Reimburse the participant for all expenses toward the medical management of the SAE in case of academic studies.

4.2 In case of pharma sponsored studies, compensation to the participant will be provided by the sponsor as recommended by the Licensing authority.

4.3 If there is a clinical trial related death, the nominee will be contacted by the PI/ designated study team member for compensation as per regulatory rules.

V. Further steps

5.1 Various steps may be taken with respect to further use of the investigational product, comparator or placebo (in the interest of participant safety). This decision may only be made by the PI and will be as prescribed in the protocol, for example,

- Discontinue the investigational product, comparator, or placebo (Dechallenge)
- Reduce dose
- If necessary, for the immediate medical care of the participant, break the drug blind after consultation with the sponsor

Appendix 2: IEC Checklist and Serious Adverse Event Report Assessment Form

SOP 11-B/V6.1 available at https://www.kem.edu/sae-annexures

Appendix 3: Timelines for reporting SAE

PI shall report all serious and unexpected adverse events to the Licensing Authority, the Sponsor or his representative and the Ethics Committee within **24 hours** of their occurrence.

PI shall be forwarded the report of the SAE, after due analysis, to the Licensing Authority, the Chairman of the Ethics Committee and the Head of the institution within **14 days** of the occurrence.

The Sponsor or his representative shall submit details of compensation provided or paid for clinical trial related injury or death, to the Licensing Authority within **30 days** of the receipt of the order of the Licensing Authority.

1. **Purpose**

This standard operating procedure (SOP) describes the responsibilities of the study team for monitoring, recording and reporting a serious adverse event (SAE) on the CDSCO/ SUGAM Portal from the time it is identified until all follow-up activities associated with its resolution have been completed.

2. **Scope**

This SOP applies to all clinical studies involving human participants.

3. **Responsibilities**

Principal investigator, Co-investigator, Study Coordinator or any other appropriately qualified staff in the team, as delegated by the Principal Investigator, will be responsible for monitoring, recording and reporting serious adverse events.

4. **Applicable rules, regulations and guidelines**

- New Drugs and Clinical Trials Rules 2019
- Indian GCP Guidelines 2001
- Ethical Guidelines for Biomedical and Health Research on Human Participants ICMR, 2017
- ICH E6 (R2) Integrated Addendum to ICH E6 (R1), Current Step 4 version dated 9th November 2016
- CDSCO vide notification: File No. CT/SAE-Misc-10/2020-Part.B, dated 25/1/2021

5. **Online Reporting of Serious Adverse Events**

The log in credentials of the PI/site for the study will be created by the Study Sponsor/CRO on the SUGAM Portal.

After obtaining the same from the Study Sponsor/CRO, the following steps are to be followed for reporting of SAE:
Reporting within 24 hours to be done by entering the basic details of the project and uploading the documents as mentioned in the checklist available on the dashboard.

A due analysis report within 14 days to be sent along with uploading the requisite documents as mentioned in the checklist available on the dashboard.

The details on the steps to be followed while reporting on the SUGAM portal or for Offline reporting, can be accessed from file:///C:/Users/pals2/Downloads/SAE_UserManual%20_(Online%20&_Offline).pdf.
